A good place to start for information on events and protests would be your local chapters of the following organizations:

eSIMs are a digital version of the physical SIM card. They are programmable remotely via software and can also be used in tablets, smartwatches, drones, and cars.

Purchasing eSIMs allows people within Gaza to connect to the outside to communicate with their families and also to show what's happening within Gaza.

gazaesims.com has all of the relevant information on how to purchase and donate eSIMs, so check out their website!

ATTEND EVENTS + PROTESTS

Attending events and protests about what's happening in Palestine is also very important! Because of the abrupt loss of communication, Egyptian journalist Mirna El-Helbawi started the initiative to get Gaza back online with esIMs.

BUY eSIMS

When Israel cut off all internet, cellular, and landline services in Gaza, Palestinians lost their access to the outside world and to each other.

Because of the abrupt loss of communication, Egyptian journalist Mirna El-Helbawi started the initiative to get Gaza back online with esIMs.

- *The Question of Palestine* by Edward Said
- *Freedom Is a Constant Struggle: Ferguson, Palestine, and the Foundations of a Movement* by Angela Y. Davis

- *Queer Palestine and the Empire of Critique* by Saeed Atshan

5 Calls provides you with the phone numbers of your Representative and Senators, as well as a script of what to say (which you can use at your discretion, of course). It's a great resource and makes calling your representatives easy.

There are a few ways you can go about this. First, you could just Google your Representative and call them yourselves. However, I find the app 5 Calls helpful!
