Now is the time to listen to Palestinians and act on their behalf.

As of today (December 20, 2023), Israel has killed at least 20,000 Palestinians since the war started. (BBC)

The actual number of deaths is likely much higher because lots of people are "missing" buried under the rubble.

Most of the people Israel has killed have been civilians.

The U.S. government is funding this.

We can't keep letting this happen.

Please do what you can to stop the violence.

You can find your representatives' phone numbers at house.gov.

Also go to protests if you can!

Save them in your phone.

Try to call them daily.

Maybe set a reminder alarm on your phone.

All you have to say is
"I'm calling to ask representative _____ to call for a
ceasefire in Gaza."

That's it!

Hundreds of civilians were killed in each day of this War. And I don't know if I will be someone of them. I don't know anything. I think no place is safe in Gaza.

I have no idea why the Palestinian people blood is very cheap for the US.

We just want to live a normal day.. with peace. This is not a big deal.

This is not Nakba! We lived Nakba for the last 75 years! This is genocide and Palestinians extermination campaigns!!

I hope US politicians do something value to end this nightmare!!

You are right. It is genocide

I am calling US politicians and asking them to do something to stop it

I am telling my friends to call politicians

Pray for us Nicole 🙏.. We still have dreams and stories to tell. We just want to live as many people in the world!
